In my clinic, I noticed a big disconnect between the skin's health on the face versus the neck and décolletage, and have since been pioneering solutions for damaged skin on these areas. Many treatments are invasive or non-invasive clinical procedures, so I sought to find the most effective ingredients to improve sagging and wrinkles. Prescribed for those who have loose, wrinkly skin on their neck and décolletage.

DR. YANNIS ALEXANDRIDES APPROVED

RESULTS

A smoother, tighter neck and décolletage, redefined jawline, strengthened skin condition.

PRESCRIPTION

Apply Neck and Décolletage Serum every day, and use Neck and Décolletage Treatment Mask every week for increased tightening and toning.
