EXCURSION HIGHLIGHTS

KRYO BAY

Kryo Bay is an essential stop-off point for visitors who appreciate taking in the sights both on land and from the sea. This isolated bay is protected from the elements thus creating the ultimate stop off point for a swim off the boat en route to the area of Plaka and Spinalonga island.

KOLOKYTHA COVE

The peaceful beach of Kolokytha lies at the heart of Kolokytha Cove. The secluded beach with white sand and crystal clear waters is surrounded by olive groves, the hallmark of the unique Cretan landscape.

SPINALONGA ISLAND

Spinalonga is a tiny island just across from the fishing village of Plaka at the northern tip of the Kolokytha Peninsula. Before becoming the last known leper colony in 1903, Spinalonga served as a fortress built by the Venetians in order to protect the Mirabello Bay. Recently the island has been catapulted into modern culture thanks to Victoria Hislop's bestselling novel *The Island*.

PLAKA VILLAGE

Traditionally a fishing village, Plaka has become synonym to the best fish this side of the island. Homemade food and local delicacies are served in the tavernas of this charming village. Uninterrupted views from the village to the island of Spinalonga round off the ultimate experience of the Mirabello Bay by sea and land.
