EXCURSION HIGHLIGHTS

KRYO BAY

Kryo Bay is an essential stop-off point for visitors who appreciate taking in the sights both on land and from the sea. This isolated bay is protected from the elements thus creating the ultimate destination for a swim off the boat en route to the area of Plaka and Spinalonga island.

VOULISMA

Pristine waters and emerald bays in the area of Voulisma are ideal for a stop off the rib boat. Enjoy the dramatic background of a valley brimming with olive groves, the hallmark of the Cretan landscape.

SPINALONGA ISLAND

Spinalonga is a tiny island just across from the fishing village of Plaka at the northern tip of the Kolokytha Peninsula. Before becoming the last known leper colony in 1903, Spinalonga served as a fortress built by the Venetians in order to protect the Mirabello Bay. Recently the island has been catapulted into modern culture thanks to Victoria Hislop's bestselling novel *The Island*.

MOCHLOS VILLAGE

A traditional fishing village located directly across from the archaeological site of an ancient Minoan settlement. The village boasts select local delicacies served in charming tavernas dotted along the shore.
